A roleta é um jogo de azar muito comum em casinos.

O termo deriva do francês roulette, que significa "roda pequena".

O uso da roleta como elemento de jogo de azar, em configurações distintas da atual, não está documentado na entrada da Idade Média.

É de suspeitar que a poker roulette online referência mais antiga seja a chamada "Roda da Fortuna", conhecida ao longo de toda a história.

[basquete bet365](#)

NetEnt has been perfecting the art of creating casino games for the past twenty years, which puts it among the big players in the gambling industry, together with software providers the likes of Microgaming and Playtech. The company was founded in 1996 in Sweden, and since then has released an abundance of quality gaming titles, thus becoming one of the leading providers of gaming content. It would be fair to say that NetEnt has truly changed the online gambling industry by focusing on the utmost quality, playability, and diversity of the games they churn out.

The company quickly

started to come into its own, and presently, its name is recognised by lovers of slots, live-dealer games, table games, video poker, and jackpot games.

The needs of roulette

fans are not overlooked either as NetEnt has several premium-quality variations of the classic table game on offer. The software provider guarantees an unforgettable experience to fans of the game as each roulette title on its portfolio stands out with superior visuals, ambient sound effects, intuitive interface, and hassle-free gameplay.

NetEnt Overview

As was mentioned already, NetEnt is easily among the creators of gaming content that have a wealth of experience under their belts because it has been showing unflagging enthusiasm to create premium casino games since 1996. Just a few years later, back in 2000, NetEnt got its very first virtual casino going.

One

major event from the history of the company was the release of its Casino™ back in 2002. After this, the sales of the company went on the rise due to the fact that their casino modules were introduced to several gaming operators. In the next few years, the company continued to expand its operations and earned a seal of approval from the Maltese Gaming Authority back in 2005.

Still, it took the company more than ten years

to break out of its shell, and it was not until 2010 when gambling enthusiasts started to associate NetEnt's name with quality slots. More specifically, this was when the

everybody-favourite slot Gonzo's Quest saw the light of the day. During the same year, NetEnt got a license issued by the Alderney Gambling Control Commission.

It is true to

say that the company has always been sensitive to the way in which the market taste evolves due to the fact that they rolled out their very first mobile games in 2011.

As

it seems, 2013 has also been rather eventful for the software provider as this was when it released its Live Casino, together with a handful of games that were designed with mobile users in mind.

Interestingly enough, the name the company initially operated under was Net Entertainment, and it was not until 2024 when its name was changed merely to NetEnt. In the meantime, the list of the casino operators the company collaborated with did not cease to expand as NetEnt signed customer agreements with some of the most well-known brands the likes of Paddy Power and Betfair.

NetEnt continued to see a

breakout success during the next years, but it did not just sit back and instead introduced its very first HTML5-based game. Naturally, it continued to expand its footprint and penetrated more and more regulated markets.

It goes without saying that

the company has already found its feet, and the games that come straight from its portfolio are among the fan-favourites of avid casino fans from a profusion of territories. In 2024, NetEnt acquired Red Tiger, but what players might be more interested to find out is that the company presented 31 new games for players to enjoy.

The games introduced by NetEnt never fail to seize the attention of gambling enthusiasts, even the nit-picky ones, which is hardly surprising considering the fact that they stand out with their impeccable visuals and animations, rewarding features, and above all, gripping gameplay.

Features of NetEnt Roulette Variations

NetEnt has

thrown its hat into the ring when it comes to creating high-end casino games, including roulette variants. The company gives its best to ensure that it will remain relevant and so far, it has seen unprecedented success in this pursuit because the roulette games it has released are hugely enjoyed by players. This is so because of their ground-breaking special features and the entertainment they are capable of delivering.

NetEnt has developed three standard variations of the game, namely European, French, and American Roulette, and what is specific about these games is that most of the time, the wheel lies above the betting layout. The games are very pleasing to the eye and offer a number of helpful functionalities, designed with the sole purpose to enhance players' gaming experience.

Placing a bet could not possibly be

simpler or more straightforward. All players have to do is select their chip denomination and click on the respective betting section. NetEnt's software really makes it as simple as that. If you have made a mistake, you can easily correct it by clicking on the Back button and then go for a new bet. Clicking on the "X" button is also an option as it clears all bets you have placed.

No matter which roulette variant

players will decide to give a shot, they will notice that even the tiniest details from the wheel are not neglected and are recreated with utmost precision. Thanks to the crisp visuals, it will be exceptionally easy for gambling enthusiasts to follow the ball's trajectory and see the number it lands on.

Players, interested in placing more

exotic bets can easily do so by bringing up the racetrack. What is interesting about the better part of the roulette variants introduced by NetEnt is that the racetrack is not pinned on the betting layout at all times as is the case with most other such games players will stumble upon. Instead, casino enthusiasts need to pay attention to the lower-left corner of the game panel where they will see a small keypad menu.

When you

click on this button and hover the mouse cursor over one of the fields from the racetrack, the numbers will be immediately highlighted depending on the chosen bet type.

Aside from the button that brings out the racetrack, the rest of the buttons that are featured in the small menu allow players to inspect statistics, check out the paytable, explore the special bets, and save the bet patterns that most appeal to you. Gambling aficionados will have the opportunity to save a maximum of ten wager types they prefer. Statistics on hot and cold numbers are available to players who wish to follow a given betting system while playing roulette. The percentages of red/black and odd/even numbers are also shown, which can help roulette mavens make informed decisions while choosing which number to bet on next.

Winning numbers are displayed in the upper

right corner of the screen immediately after each spin, together with the information on the hot and cold numbers. The Quick Spin feature allows for a more dynamic game as thanks to it, players will be able to make a greater number of wagers when compared with the standard mode. If they prefer, players can also go for an auto-adjust of their wagers.

Gambling enthusiasts can also benefit from the Autoplay functionality, which gives them the opportunity to go through up to 1,000 rounds without interruption. Something important roulette lovers should remember is that all rounds will be played at one and the same bet level.

If they decide to make use of this functionality,

players will be asked if they prefer to have it switched off after just about any win, when their winnings exceed a specific amount or when their balance is increased or decreased by a specific amount.

Chips are available in a number of denominations,

including £1, £2, £5, £25, £50, £100 and £500. This renders the games suitable for risk-averse and more daring players alike.

Yet, with some roulette variants like

European Roulette, for example, players can opt for a £1,000 chips denomination as well, which high-stakes players might be delighted to hear.

Finally, depending on their

preferences, avid casino fans will be enabled to turn off the dealer's voice, the background music, and sound effects.

Another distinctive trait of the roulette variants

that come from the gaming suite of NetEnt is that some of them allow players to benefit from the La Partage and En Prison Rules. Perhaps, you already know that in practice, they bring the house advantage down due to the fact that gambling aficionados will have half of the amount they have put on a stake returned to their bankroll in the event that the white ball ends up in the zero pocket.

Popular NetEnt Roulette

Variations

Players who are looking for more traditional variations of the table game

will surely appreciate NetEnt's variants of American, French, and European Roulette.

Those of you who boast a considerable experience at the roulette table can opt for Roulette Advanced. If you are looking for something out of the ordinary, NetEnt's Mini Roulette is just the thing you need. Read on for more detailed information on the

roulette variants the developer has introduced.

European Roulette

NetEnt's take on

European Roulette can turn out to be rather appealing to players because the game boasts extremely crisp visuals, while its authentic casino sounds render it even more enjoyable. You can clearly hear the dealer announcing the result after each spin, while a soft, ambient music is playing in the background, which further adds up to the authenticity of the gaming atmosphere.

Since this is an European-style roulette game, the wheel features only 37 pockets, one of which contains the zero. The game offers the standard betting options, including outside bets and inside bets on individual numbers or combinations of numbers. This also means that whenever players predict the winning number correctly, they will be paid out at the rates of most other European-style roulette versions.

You can see the minimum and maximum amounts allowed for each type of wager by simply hovering the mouse cursor over the respective betting area on the layout. The maximum limit for even-money bets is usually higher, and might stand at £500. It is also possible to make call bets on the racetrack that is located between the wheel and the main betting layout.

Other useful features of the game include statistics on percentages of red/black and odd/even numbers and the Double Bet functionality. If you wish, you can easily repeat one of the wagers you have already saved.

Finally, NetEnt's European Roulette is likely to draw the attention of rookies and seasoned roulette players also due to the fact that it provides seamless entertainment across desktop and touchscreen devices.

American Roulette

NetEnt provides

fans of the game with yet another masterfully designed variation, namely American Roulette. This roulette variant is hugely popular among gambling enthusiasts, and this can be easily explained as everything in the game is set up in an understandable and clear fashion. The flow of the game is the ordinary one, which is why it is suitable for total novices and old hands alike.

The reason why the game might become an instant like for gambling enthusiasts is that it impresses with the high-end quality of the graphics and the animations. The dynamic gameplay it offers and its interactive design should not be underrated as well.

The game features a standard table layout, and the wheel is situated in the upper part of the screen above the betting area.

However,

since this is the American cousin of the popular game, the wheel contains an additional double-zero pocket. Less experienced players should keep that in mind because the built-in house advantage on a double-zero wheel increases to 5.26%.

If you are not

familiar with the payouts for the different types of bets, you can quickly check them out by clicking on the Open Paytable button. When you hover the cursor above the betting boxes on the table, you will be able to see the minimum and maximum amounts for each bet. Maximum bet limits differ from one type of bet to another, but the minimum bet limit is set at £1.

If you open the racetrack, you will be able to place bets which cover specific sections of the wheel. However, these are not to be mistaken with the so-called French bets, allowed in European and French roulette since the arrangement of the numbers on American roulette wheels is different.

The game makes it possible for players to keep track of the hot and cold numbers. Statistics regarding the percentages of red/black and odd/even numbers that have come up are also displayed, thanks to the dynamic billboard that lies in the upper right corner of your screen. The Autoplay feature is very useful as it enables players to adjust the game's settings so that the ball spins automatically for up to 1,000 rounds. As is the case with the rest of the roulette variants NetEnt has introduced, gambling aficionados will be permitted to have the autoplay discontinued when a win occurs or when their bankroll is increased or decreased by a specific amount.

If you wish to play the game at a more dynamic pace, you can turn on the Quick Spin functionality, so that the ball ends up in the winning pocket in what seems like a split second.

Finally, roulette mavens should be aware that NetEnt's American Roulette has an RTP of 94.74%.

French Roulette

NetEnt's French

Roulette bears many similarities with the European variant of the table game we already focused our attention on. As can be expected from the games supplied by NetEnt, if gambling enthusiasts decide to give French Roulette a chance, they will get the feeling that they are playing it on an actual table, thanks to the crystal-clear quality of the visuals.

The variant offers players a classic casino experience on a single-zero wheel where there are only 37 pockets. The biggest difference is that the bets on the layout are written in French, which is a feature the bulk of the French-style roulette games have in common. For example, Odd/Even bets are called Impair/Pair while High/Low bets go by the name of Passe/Manque bets. If you do not pay that much attention to the way in which the names of the wager types are written, you will not experience any difficulties enjoying the game as its objective remains the same, while handling your stakes simply cannot be easier.

When the game loads, you will see a detailed 3D wheel and the betting layout where the betting boxes for inside and outside bets are located. As was the case with the roulette variants we discussed already, when you hover your mouse over one of the betting boxes, you will notice that the specific number or group of numbers that are part of the respective wager type will be highlighted. The minimum and maximum bet limits are also shown, which will help players figure out if the bet they are about to place is advantageous to them or not.

At the right upper corner of the screen, you can see the hot numbers that occur regularly along with the cold ones that are spun less frequently. The win percentages of red/black and odd/even numbers are also displayed. You may notice that the outcomes of previous spins are shown directly next to the hot and cold numbers board.

If you wish, you can cover more substantial sections of the wheel by placing Orphelins, Tiers du Cylindre, and Voisin du Zero bets. As you might expect, so as to make a call bet, you should first bring the racetrack out by clicking or tapping on the small menu in the lower-left corner of your screen.

Roulette Advanced

If you are on the lookout for a roulette variant that brings all the thrill and excitement of the real thing, then look no further than NetEnt's Roulette Advanced. This version of the game captures the magic of roulette with its top-notch graphics and is undoubtedly one of the most comprehensive online roulette games in terms of features.

As soon as you load the game, you will notice that the

table layout differs from that on NetEnt's standard American, French, and European roulette variations. The single-zero wheel, in this case, is positioned at the upper left corner, with the betting layout taking most of the screen. One more distinctive trait of this roulette variant is that the racetrack will be available on the betting layout at all times, and players will not be required to bring it out wherever they feel like placing any of the call bets.

The chip denominations here are as follows –

£1, £2, £5, £25, £50, and £100. The table can be divided into two sections – the main betting layout for inside and outside bets and the racetrack where players can bet on Red/Black Splits, Voisin du Zero, Orphelins, and Tiers du Cylindre. Finale Plein or Final bets are also allowed, which significantly increases the number of betting options available.

Making a bet is quite straightforward. All you need to do is select your chip denomination and then click on the respective betting box on the layout. When you position your mouse cursor over a betting box, it immediately lights up to indicate which numbers are covered with your bet.

All the information regarding the game is

shown in a billboard, located at the lower-left corner of the screen. The said billboard displays information on the last fourteen spin outcomes as well as the hot and cold numbers. The percentage of the times the ball has landed on zero, red/black, and odd/even numbers is also readily available.

Interestingly enough, if you wish to

make a bet on the hot or cold numbers, all you are required to do is click on them in the statistics billboard as the chips will be automatically placed on the respective group of numbers. Other useful features include the Autoplay and the Quick Spin functionalities. If you decide to use the Quick Spin, you will notice that the wheel turns less than thirty degrees in the opposite direction.

This roulette variant is

likely to keep gambling enthusiasts clued up because of its immersive sounds and the smooth gameplay it delivers across devices with smaller screens and desktop ones.

Furthermore, betting on it cannot be more straightforward, which promises that even players who lack experience in betting on roulette will easily find their way around and enjoy themselves to the fullest.

Mini Roulette

It is true to say that the games

NetEnt introduces are designed with players in mind, and more specifically, with a view to providing them with a thrilling, yet rewarding gaming experience, which is the case with Mini Roulette. What makes the game appealing is not its sheer originality, but the unusual take of the software provider on the classic table game. In essence, Mini Roulette is simply a small-scale European-style roulette variant, meaning that no additional complications are implemented into the gameplay.

Both the wheel and the

betting layout contain only 13 numbers, 0 through 12, which in practice, gives players better chances of making a correct prediction. Players can choose between several chip denominations, including £1, £5, £10, and £100, while most of the time, the table limit stands at £500.

Bets can be placed on individual numbers, on numbers' properties like

Odd/Even and Red/Black or on combinations of numbers. However, it is worth mentioning that winning bets pay out differently because there are fewer numbers to bet on, which increases the ball's chances of landing in a specific pocket.

Thus, Split bets pay out

5 to 1, Straight Up bets on single numbers have a payout of 11 to 1, while Three Line bets pay 3 to 1. Since the chances of the ball landing on zero is greater, players will

have half of their initial stakes returned whenever this happens. Other useful functionalities included in the game are the Quick Spin and the Rebet features.

Mini

Roulette's user-friendly interface guarantees that players will enjoy a seamless experience across all devices, which comes to explain why it continues to turn heads.

NetEnt Live Roulette Games

NetEnt is not known exclusively for its slots,

jackpot games, and table and card classics, but also for the premium live gaming experience it delivers. The live dealer games NetEnt has rolled out take the live experience to a whole new level, thanks to the advanced gaming features they go hand in hand with.

The live games of the software provider are instantly recognisable because they do not simply offer a realistic experience as instead, they provide a wider range of betting opportunities and game themes.

The multiple awards NetEnt has earned come to prove that their live-dealer games are of the highest quality. Some of the features players might enjoy most about these games include enhanced video quality, faster game rounds, higher betting limits, multiple camera views, as well as their in-game chat functionality.

The live-dealer roulette games NetEnt has presented are unlikely to go unnoticed by lovers of the table game as they will get to enjoy a thrilling and action-packed experience, thanks to the multiple camera angles that make it possible to capture each and every detail from the betting action that takes place on the table.

Thanks to the close-ups, players will be able to see which the winning number is at all times.

What avid casino fans might be happy to hear about the live-dealer roulette games is that they allow for placing call bets, provide betting details, and winning information when they hover their mouse cursor over the betting layout. Fortunately, these games are not void of statistics and game history as well. The options to rebet and double the betting value are in place too.

Best of all, gambling enthusiasts do not

need to deal with any limitations in terms of when or where to play the live roulette variants that are up to their alley as these NetEnt's creations are playable on tablets and smartphones that are based on Android or iOS.

E-mail:

Era o início dos anos 90 e eu era um morador marginal de 22, vivendo sob uma lona poker roulette online acampamento na base do Monte Arapiles – centro para escaladas no oeste da Victoria - ao lado duma tribo. Nos fins-de semana viajavamos até à costa com frequência a fim que nos encontrássemos outros jovens alpinistas ou se dispusessem junto á praia...

Um fim de semana memorável, Jon apareceu. Eu o conheci brevemente no verão anterior poker roulette online Mount Arapiles e senti uma atração instantânea por esse homem barulhentos ou carismático!

Ao pôr do sol, todos partimos para passar a noite passeando pelas dunas de areia sob influência da lua cheia (e quem sabe o que mais). Jon e eu logo caí poker roulette online lockstep. Parando quando ele viu um osso das pernas com vaca branca saliente saindo nas Dunas! Nós nos sentamo-nos maravilhados como seria uma ótima ferramenta lutar contra cães selvagens ou arquivados sobre pedra numa lança: Ambos nós pareciam ser colecionadores desde criança... Tinha-me esquecido de embalar comida e mencionei que era voraz. Jon pescava na mochila dele, puxando um bar muesli com uma laranja... Ele tinha trazido apenas o suficiente para si mesmo mas quebrou ao meio aquilo a quem ele pertencia; este simples acto generoso deixou me enfeitiçados!

Ao amanhecer, todos estavam de volta ao acampamento poker roulette online sacos-cama à beira do fogo exaustos. Exceto Jon que estava cortando as costas pelo perímetro da área acampada e segurando o osso das pernas com os olhos brilhando; eu fui transfixado por poker roulette online fisicalidade animal selvagem – um corpo fluido gracioso!

Quando o fim de semana acabou, voltamos para nossas respectivas vidas – eu à minha lona no Monte Arapiles e Jon a poker roulette online pequena casa poker roulette online uma cidade vizinha onde ele trabalhou como um guia que escalava rochas. John era casado com alguém na época então nunca nos considereei juntos; mas algo mudou meu mundo: percebia-me mais do homem respeito pelas mulheres da Terra - Alguém me deu espaço pra crescer...

Nos 11 anos que se seguiram, me afastei do Monte Arapiles e da comunidade de escalada. Trabalhei como babá para construir minha própria casa passiva-solar com jardim permaculturas; tentei esquecer Jon

Então, um dia do nada (abaixo)...

Recebi um telefonema de Jon para dizer: "Feliz aniversário, e a propósito você sabia que sou solteiro?" Todos esses anos ele também estava pensando poker roulette online mim. Estávamos cultivando vegetais? colhemos energia solar; cortava madeira com quem cozinhar - criando galinhas como carne ou ovos! Fazia sentido fazê-lo juntos num só lugar dentro da semana estávamos noivos...

"Todos esses anos, ele também tinha pensado poker roulette online mim": Suzan e Jon num buraco de água no início do relacionamento.

Começamos a criar um negócio juntos nos Grampians, oferecendo expedições selvagens e hospedagem de estadias para as pessoas. Nosso amor pela terra minimizando nosso impacto no planeta manteve-nos unidos através dos enormes desafios da vida - incluindo meus surtoes recorrentes do câncer na mama poker roulette online 2024, terminam o documentário sobre nossa forma fora das grade chamado Suzy and the Simple Man (Suzir E O Homem Simples).

A generosidade de Jon ainda se sente como a cola que mantém nossa vida unida.

No inverno passado, eu passei a testar minhas habilidades de sobrevivência na natureza da Ilha Sul do Nova Zelândia como participante no reality show Alone Austrália. Eu durou 63 dias ndias por foralamento e caçando pescar minha experiência todos os dia senti presença Jon comigo para ganhar o prêmio AU R\$ 250.000 investir poker roulette online mais segurança hídrica que um futuro à prova meu terreno tão vivo há 22 anos; coloquei apenas 24 horas depois casa longe mas só estava vindo

Caminhadas de Jon e Suzan na Tasmânia no inverno
