Even though one of the main goals in poker is to throw your opponent off balance and force them to make mistakes, certain limits should never be crossed.

These limits are a part of what's known as "poker etiquette" – a set of unwritten poker rules that the majority of players knows and follows.

The "slow roll" belongs to this group and is considered a big no-no for most players, so let's dig deeper into what it means and why it's a problem.

What Is Slow Rolling In Poker?

A slow roll is when you have an extremely strong hand but take a long time to make an easy call when closing the action on the river. Slow rolling is also when you know you have the best hand but purposely take a long time to reveal your hand at showdown.

For example, let's say you have KhJh, and there are three hearts by the river. You bet, and your opponent calls. Since they didn't raise, you can be sure you have the best hand even though it's not the absolute nuts.

Instead of turning your hand immediately, you hesitate and wait for them to show their holdings, giving them the impression they might have the winner.

Although there isn't a single clear definition of a slow roll in poker, almost everyone who's played for more than a few weeks is aware of when they do it – and very rarely does it happen by accident.

Here is a perfect example of slow rolling – check out the reactions from the other players and commentators:

Why Is Slow Rolling Bad?

The only thing you gain from slow rolling is upsetting and irritating your opponents.

If you have the winner, you know you have the winner, so taunting them by making them think they're going to win the hand is just poor sportsmanship and bad manners.

It's a matter of common courtesy and respect for your opponents.

As well as this, taking forever to show down your hand slows the whole game down, which means everyone at the table suffers. Things tend to move slowly as it is at the live tables.

Slow rolling in poker fails to achieve anything positive.

Is Slow Rolling Against The Official Rules?

Players who like to slow roll others in poker will often argue that there's nothing to prevent it in the official rules.

In theory, this is true, as there's no defined number of seconds or minutes within which you have to showdown your hand when it's your turn to act.

So, you're not likely to get any official penalties like a couple of rounds away from the table.

However, if you're playing in a new setting, you might run into a poker room manager who doesn't appreciate such actions. If you keep doing it even after being warned, they might still give you a penalty.

Every poker room and manager out there can run their games however they see fit.

If they find you're disrupting the games, you could still find yourself sitting on the rail for a little while to consider your actions or even completely out of the game if you bother others too much.

How To Avoid Accidental Slow Rolls

Not everything in poker is clear-cut, and we all get confused sometimes.

However, you should try to avoid even an accidental slow roll by remembering to:

Muck your hand or turn your cards over when it's your turn.

Turn your hand first if you know you have the nuts – unless there is a specific reason not to do it.

Be polite and turn your hand over when the player says "you've got it" or something along those lines.

Live poker is as much about having people skills as it is about math and ranges.

Being nice and polite will likely pay off in the long run – in more ways than you can imagine if you're just starting.

The bottom line is, you don't want to be that guy who annoys everyone else at the table and no one wants to play with.

Being considered a jerk won't help your win rate or win you any friends, guaranteed.

Abertura: O Túnel do Canal cumpre 30 anos

Hoje, o Túnel do Canal, que liga a Inglaterra e a França, completa 30 anos. Essa ligação física entre a Europa e a maior ilha da Grã-Bretanha é um feito tanto de engenharia quanto de política, marcando o momento bet sport vip que a Grã-Bretanha parou de "brincar" e aceitou ser parte da Europa.

Um pouco de história

Apesar de a identidade britânica estar ligada à bet sport vip condição insular, e Inglaterra e

França serem as únicas nações a terem lutado duas guerras que duraram cem anos, as identidades e territórios de Inglaterra e França estiveram historicamente entrelaçados. Isso é especialmente verdade após a queda de Roma, quando o reino de Kent teve ligações com o reino Franco além do Canal, e ambos os lados do Canal estavam sob a mesma "prefeitura imperial". No início do século XI, os Vikings, que controlavam Neustria (agora Normandia), conquistaram a Inglaterra, criando um mundo anglo-normando que se estendia do norte ao sul do Canal. Essa situação durou até 1284, quando Eduardo I da Inglaterra restaurou o domínio inglês sobre o País de Gales.

Dois países, uma história compartilhada

Apesar de diferenças no idioma e na cultura, a Inglaterra e a França compartilham uma história longa e intrincada. As guerras e alianças entre elas moldaram a Europa e, bet sport vip última instância, o mundo. O Túnel do Canal é um símbolo físico desse relacionamento e um tributo às realizações políticas e de engenharia que fizeram esse projeto possível.
