Lotto Madness Slots

With a name like Lotto Madness, this is one casino game that might leave you disappointed when you find out that the game isn't actually lottery based, but don't worry, as given what is in store here you aren't likely to be left disappointed for very long.

Lotto Madness is a 5-reel, 20-payline slot machine themed around winning the lottery. There's certainly plenty of money to be won here, along with there being various different ways to get it done. Through the Dollar Ball Jackpot, through one of the bonus games, or just by scoring a winning combination, Lotto Madness is a Playtech title that clearly likes to mix things up when it comes to ways to win.

Given everything that this brand new title brings to the reels, is Lotto Madness really up to the standards of other leading Playtech releases? Let's take a look and find out...

Rolling big and rolling deep

Lotto Madness has 20 paylines, but you don't have to bet on all 20 at once. You can play as many lines as you want, with the degree of involvement solely down to the player.

You bet with coins that are valued from between R\$0.01 and R\$10.00, while you're even able to bet multiple coins on one line should you really be looking to raise the stakes. As a result the biggest single bet you can make is R\$100 per line, which means Lotto Madness is a game that is perfect for high rollers.

The base jackpot is set at 10,000 coins and to get your hands on all that cash you need to line up five Wild symbols on any activate payline. You're in good hands with Lotto Madness too, as the average payout percentage is 97.06%.

Scatter

across the balls

Lotto Madness also comes with scatter symbols, which will be music to

the ears of those who love free spins. While you won't be able to start a bonus game with them, this is where Lotto Madness is different from other Playtech titles; you do get an instant cash payout when you line up three or more.

Getting three scatter

symbols (the dollar sign) secures you a payout of 5x your total bet. Landing four in a row gets you 10x your bet. If you manage to be lucky enough to line up five, then you're really in the money with a total of 50x your baseline bet.

Make a deal and spin

the wheel

To get started within the Lotto Madness bonus game you need to land the Bonus symbol on reels one and five at the same time. Doing so loads up a new screen that includes the bonus wheel, which is split into different segments.

The bonus game is

easy enough to play, just spin the wheel and let it do its thing. It spins around and around and you win the prize it lands on, which is usually a multiplier and a number of free spins. The top prize is 20 free spins with a 10x multiplier, which as you can gather has serious payout boosting potential.

Method behind the madness

The bonus

symbols in this game are purely for triggering the bonus round. There's no extra bonus handed out for "just getting" the bonus symbols. You either get the bonus game or you get nothing. While it is possible to still trigger the bonus game during a free spin, you don't get to play the game again. Instead, what happens is that you receive a random amount of free spins to be added on top of your current total.

This lack of

"additional extras" may leave some disappointed, but it can certainly be argued that everything else offered in the game certainly makes up for that.

It could be you!

If

you want to play a simple slot machine, and not lose all your money in one go in the process, then Lotto Madness is the slot game for you. It may pay out most small figures, but it pays out often enough to keep you playing. As such it's a great game for newbies who are just getting started. It also has enough going for it to satisfy long time players and cement its place in the lineage of video slot machines.

All in

all, Lotto Madness certainly isn't a game that is going to blow you away, but there is no denying that it has the power to entertain.
