[futebol da sorte sga](#)

An ace-high straight flush, commonly known as a royal flush, is the best possible hand in many variants of poker.

In 1 poker, players form sets of five playing cards, called hands, according to the rules of the game.[1] Each hand has 1 a rank, which is compared against the ranks of other hands participating in the showdown to decide who wins the 1 pot.[2] In high games, like Texas hold 'em and seven-card stud, the highest-ranking hands win. In low games, like razz, 1 the lowest-ranking hands win. In high-low split games, both the highest-ranking and lowest-ranking hands win, though different rules are used 1 to rank the high and low hands.[3][4]

Each hand belongs to a category determined by the patterns formed by its cards. 1 A hand in a higher-ranking category always ranks higher than a hand in a lower-ranking category. A hand is ranked 1 within its category using the ranks of its cards. Individual cards are ranked, from highest to lowest: A, K, Q, 1 J, 10, 9, 8, 7, 6, 5, 4, 3 and 2.[5] However, aces have the highest rank under ace-to-five high 1 or six-to-ace low rules, or under high rules as part of a five-high straight or straight flush.[6][7] Suits are not 1 ranked, so hands that differ by suit alone are of equal rank.[8] There are nine categories of hand when using a 1 standard 52-card deck, except under ace-to-five low rules where straights, flushes and straight flushes are not recognized. An additional category, 1 five of a kind, exists when using one or more wild cards. The fewer hands a category contains, the higher 1 its rank.[9] There are  $52! / (5! \cdot 47!) = 311,875,200$  ways to deal 1 five cards from the deck but only  $52! / (5! \cdot 47!) = 2,598,960$  distinct hands, because the order in which cards are dealt or arranged in a hand does not matter.[10] 1 Moreover, since hands differing only by suit are of equal rank, there are only 7,462 distinct hand ranks.[11]

Hand-ranking categories [ 1 edit ]

\* Only possible when using one or more wild cards \*\* Category does not exist under ace-to-five low rules

Five 1 of a kind [ edit ]

Five of a kind, aces

Five of a kind is a hand that contains five cards 1 of one rank, such as 3 3 3 3 3 ("five of a kind, threes"). It ranks above a straight 1 flush but is only possible when using one or more wild cards, as there are only four cards of each 1 rank in the deck.[6] Five of a kind, aces, A A A A Jkr, becomes possible when a joker is 1 added to the deck as a bug, a form of wild card that may act

as a fifth ace.[5] Other 1 wild card rules allow jokers or other designated cards to represent any card in the deck, making it possible to 1 form five of a kind of any rank.[12] Each five of a kind is ranked by the rank of its quintuplet. 1 For example, Q Q Q Q Q ranks higher than 6 6 6 6 6.[6][13]

Straight flush [ edit ]

A jack-high 1 straight flush

A straight flush is a hand that contains five cards of sequential rank, all of the same suit, such 1 as Q J 10 9 8 (a "queen-high straight flush").[4] It ranks below five of a kind and above four 1 of a kind.[5] Under high rules, an ace can rank either high (as in A K Q J 10, an 1 ace-high straight flush) or low (as in 5 4 3 2 A, a five-high straight flush), but cannot simultaneously rank 1 both high and low (so Q K A 2 3 is an ace-high flush, but not a straight).[6][13] Under deuce-to-seven 1 low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high flush). Under ace-to-six low 1 rules, an ace always ranks low (so A K Q J 10 is a king-high flush).[14] Under ace-to-five low rules, 1 straight flushes are not possible (so 9 8 7 6 5 is a nine-high hand).[7]

Each straight flush is ranked by 1 the rank of its highest-ranking card. For example, 10 9 8 7 6 ranks higher than 8 7 6 5 1 4, which ranks higher than 6 5 4 3 2. Straight flush hands that differ by suit alone, such as 1 7 6 5 4 3 and 7 6 5 4 3, are of equal rank.[6][13]

An ace-high straight flush, such as 1 A K Q J 10, is called a royal flush or royal straight flush and is the best possible hand 1 in ace-high games when wild cards are not used.[5][15][16] A five-high straight flush, such as 5 4 3 2 A, 1 is called a steel wheel and is both the best low hand and usually the best high hand of the 1 showdown in ace-to-five high-low split games.[4]

Four of a kind [ edit ]

Four of a kind, fives

Four of a kind, also 1 known as quads, is a hand that contains four cards of one rank and one card of another rank (the 1 kicker), such as 9 9 9 9 J ("four of a kind, nines"). It ranks below a straight flush and 1 above a full house.[5]

Each four of a kind is ranked first by the rank of its quadruplet, and then by 1 the rank of its kicker. For example, K K K K 3 ranks higher than 7 7 7 7 Q, 1 which ranks higher than 7 7 7 7 10. Four of a kind hands that differ by suit alone, such 1 as 4 4 4 4 9 and 4 4 4 4 9, are of equal rank.[6][13]

Full house [ edit ]

A 1 full house, sixes over kings

A full house, also known as a full boat or a tight or a boat (and 1 originally called a full hand), is a hand that contains three cards of one rank and two cards of another 1 rank, such as 3 3 3 6 6 (a "full house, threes over sixes" or "threes full of sixes" or 1 "threes full").[17][18] It ranks below four of a kind and above a flush.[5]

Each full house is ranked first by the 1 rank of its triplet, and then by the rank of its pair. For example, 8 8 8 7 7 ranks 1 higher than 4 4 4 9 9, which ranks higher than 4 4 4 5 5. Full house hands that 1 differ by suit alone, such as K K K J J and K K K J J, are of equal 1 rank.[6][13]

Flush [ edit ]

A jack-high flush

A flush is a hand that contains five cards all of the same suit, not 1 all of sequential rank, such as K 10 7 6 4 (a "king-high flush" or a "king-ten-high flush").[19] It ranks 1 below a full house and above a straight.[5] Under ace-to-five low rules, flushes are not possible (so J 8 4 1 3 2 is a jack-high hand).[7]

Each flush is ranked first by the rank of its highest-ranking card, then by the 1 rank of its second highest-ranking card, then by the rank of its third highest-ranking card, then by the rank of 1 its fourth highest-ranking card, and finally by the rank of its lowest-ranking card. For example, K J 9 6 4 1 ranks higher than Q J 7 6 5, which ranks higher than J 10 9 4 2, which ranks higher 1 than J 10 8 6 3, which ranks higher than J 10 8 4 3, which ranks higher than J 1 10 8 4 2. Flush hands that differ by suit alone, such as 10 8 7 6 5 and 10 1 8 7 6 5, are of equal rank.[6][13]

Straight [ edit ]

A ten-high straight

A straight is a hand that contains five 1 cards of sequential rank, not all of the same suit, such as 7

6 5 4 3 (a "seven-high straight"). It ranks below a flush and above three of a kind.<sup>[5]</sup> Under high rules, an ace can rank either high 1 (as in A K Q J 10, an ace-high straight) or low (as in 5 4 3 2 A, a 1 five-high straight), but cannot simultaneously rank both high and low (so Q K A 2 3 is an ace-high hand).<sup>[6][13]</sup> Under deuce-to-seven low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high hand). Under 1 ace-to-six low rules, an ace always ranks low (so A K Q J 10 is a king-high hand).<sup>[14]</sup> Under ace-to-five 1 low rules, straights are not possible (so 10 9 8 7 6 is a ten-high hand).<sup>[7]</sup>

Each straight is ranked by 1 the rank of its highest-ranking card. For example, J 10 9 8 7 ranks higher than 10 9 8 7 1 6, which ranks higher than 6 5 4 3 2. Straight hands that differ by suit alone, such as 9 1 8 7 6 5 and 9 8 7 6 5, are of equal rank.<sup>[6][13]</sup>

An ace-high straight, such as A K 1 Q J 10, is called a Broadway straight,<sup>[20]</sup> while a five-high straight, such as 5 4 3 2 A, is 1 called a baby straight,<sup>[21]</sup> bicycle or wheel and is the best possible hand in ace-to-five low games (where it is 1 a high card hand, not a straight).<sup>[22][23]</sup>

Three of a kind [ edit ]

Three of a kind, queens

Three of a kind, 1 also known as trips or a set, is a hand that contains three cards of one rank and two cards 1 of two other ranks (the kickers), such as 2 2 2 K 6 ("three of a kind, twos" or "trip 1 twos" or a "set of twos"). It ranks below a straight and above two pair.<sup>[5]</sup>

Each three of a kind is 1 ranked first by the rank of its triplet, then by the rank of its highest-ranking kicker, and finally by the 1 rank of its lowest-ranking kicker. For example, 6 6 6 Q 4 ranks higher than 3 3 3 K 2, 1 which ranks higher than 3 3 3 J 7, which ranks higher than 3 3 3 J 5. Three of 1 a kind hands that differ by suit alone, such as 9 9 9 10 8 and 9 9 9 10 1 8, are of equal rank.<sup>[6][13]</sup>

In community card games, such as Texas hold 'em, three of a kind is called a 1 set only when it comprises a pocket pair and a third card on the board.<sup>[24]</sup>

Two pair [ edit ]

Two pair, 1 jacks and threes

Two pair is a hand that contains two cards of one rank, two cards of another rank and 1 one card of a third rank (the kicker), such as J J 4 4 9 ("two pair, jacks and fours" 1 or "two pair, jacks over fours" or "jacks up").<sup>[17][25]</sup> It ranks below three of a kind and above one pair.<sup>[5]</sup>

Each 1 two pair is ranked first by the rank of its higher-ranking pair, then by the rank of its lower-ranking pair, 1 and finally by the rank of its kicker. For example, 10 10 2 2 K ranks higher than 5 5 1 4 4 10, which ranks higher than 5 5 3 3 Q, which ranks higher than 5 5 3 3 1 J. Two pair hands that differ by suit alone, such as K K 7 7 8 and K K 7 1 7 8, are of equal rank.<sup>[6][13]</sup>

One pair [ edit ]

One pair, tens

One pair, or simply a pair, is a hand 1 that contains two cards of one rank and three cards of three other ranks (the kickers), such as 4 4 1 K 10 5 ("one pair, fours" or a "pair of fours"). It ranks below two pair and above high card.<sup>[5]</sup>

Each 1 one pair is ranked first by the rank of its pair, then by the rank of its highest-ranking kicker, then 1 by the rank of its second highest-ranking kicker, and finally by the rank of its lowest-ranking kicker. For example, 9 1 9 Q J 5 ranks higher than 6 6 K 7 4, which ranks higher than 6 6 Q J 1 2, which ranks higher than 6 6 Q 8 7, which ranks higher than 6 6 Q 8 3. One-pair 1 hands that differ by suit alone, such as 8 8 10 6 5 and 8 8 10 6 5, are 1 of equal rank.<sup>[6][13]</sup>

High card [ edit ]

High card, king

High card, also known as no pair or simply nothing, is a 1 hand that does not fall into any other category, such as K J 8 7 4 ("high card, king" or 1 "king-jack-high" or "king-high").<sup>[17][26]</sup> Note that under ace-to-five low rules, straights, flushes and straight flushes are not possible, so such hands 1 are instead high card hands.<sup>[7]</sup> It ranks below one pair.<sup>[5]</sup>

Each high card hand is ranked first by the rank of 1 its highest-ranking card, then by the rank of its second highest-ranking card, then by the rank of its third highest-ranking 1 card, then by the rank of its fourth highest-ranking card, and finally by the rank of its lowest-ranking card. For 1 example, K 6 5 3 2 ranks higher than Q J 6 5 3, which ranks higher than Q 10 1 8 7 4, which ranks higher

than Q 10 7 6 4, which ranks higher than Q 10 7 5 1 4, which ranks higher than Q 10 7 5 2. High card hands that differ by suit alone, such as 1 10 8 7 6 4 and 10 8 7 6 4, are of equal rank.[6][13] Under deuce-to-seven low rules, a seven-five-high 1 hand, such as 7 5 4 3 2, is the best possible hand.[27] Under ace-to-six low rules, where aces have 1 the lowest rank, a six-four-high hand, such as 6 4 3 2 A, is the best possible hand.[28] Under ace-to-five 1 low rules, where aces have the lowest rank and straights, flushes and straight flushes are not possible, a five-high hand, 1 such as 5 4 3 2 A or 5 4 3 2 A, commonly known as a bicycle or wheel, 1 is the best possible hand.[7][22]
