Try your hand at European Roulette Pro , available via various casinos and powered by Swedish software firm Play'n GO . The company has been bagging awards for its innovative, fun approach to slots for many years. With European Roulette Pro , the developer turns its attention to the different medium of table games.

How to play

How

to Play European Roulette Pro

While American roulette has one extra pocket (the double green zero), and the order of the numbers is different, the payouts and rules for European and American roulette are otherwise broadly similar. Equally, the objective is always the same. That's to guess the outcome of the roulette spin correctly. Play on a wheel with numbered slots, a ball and a layout on which you place bets covering a group of numbers or a single number.

Play'n GO ensure that your roulette play is accompanied by some gorgeous music and graphics. At the same time, there are various different wagering and playing options from which you can choose.

Try the demo version before you

play for real money, although that won't give you every experience of every possible scenario, so make sure you understand the rules fully before playing for hard cash.

Rules and Payouts

Under the rules of most versions of European Roulette Pro, there are 37 slots in all, just one of which is a zero. The game also features the standard outside and inside bets.

Some casinos offer a user-friendly racetrack which you'll see on the board. This makes it easy to place your neighbouring and final wagers. You'll also see a useful hot/cold numbers chart which should help you plot your strategy. This allows you to understand the frequency with which every number is spun.

As with all versions of roulette, the insider wagers enjoy better payouts but have smaller odds. As an example, straight bets shell out 35:1, whereas if you place your chips on black/even, the payout is the usual 1:1. Check out the payout rates by

hovering above the relevant places on the table.

Special Play Options

There are various

versions of European roulette around, some of with quick-play or autoplay features. And with some variants, you will have the chance to select Quick Spin, which allows you to bypass the ball animation, and to use auto spin once you have placed your bets.

What

these features do is help you to play faster if your strategy for playing the game is quicker.

Other ways of personalising the game may include turning the sound on or off or using turbo mode to turn the animation on or off.

Return to Player (RTP)

The Return

to Player or RTP is the percentage of any wagered money that will be paid back to players over time. With European Roulette Pro, look for a casino offering at least 97.30%.

The Verdict

All in all, you should find European Roulette Pro fast, fun and user-friendly – definitely, one to try if you're a fan of table games and enjoy roulette in particular.
